DETAILED ACTION

Claim Rejections - 35 USC § 112

1. Claim 5 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 5 is replete with grammatical errors which renders the claim vague and indefinite. For instance, it is questionable what the phrase "processing said return to detection responses from a plurality of sub-bands" means. Further, there appear to be commas missing at line 2 after "target", line 3, after "sub-bands", etc.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 1-5 are rejected under 35 U.S.C. 102(b) as being anticipated by any one of the patents to Hundt ('224), Sacha ('532) and Smith ('893).

With respect to claims 1 and 5, see Hundt, col. 4, line 52- col. 5, line 6.

Dependent claims 2, 3 and 4 are further provided by the Hundt reference.

Specifically, with respect to claim 2, it is well known that a matched filter has a filter response corresponding to the complex conjugate of the transmitted spectrum of the signal. Such a filter is shown by elements 32 of Hundt.

With respect to claims 1 and 5, see Sacha, Fig. 7, and col. 7, line 45 – col. 9, line 32.

Dependent claims 2-4 are further provided by the system of Sacha.

With respect to claims 1 and 5, see Smith, Fig. 1 and col. 4, line 30 – col. 5, line 11.

Dependent claims 2-4 are further provided by the system of Smith.
